

## Environmental Policy Statement

---

**KrisEnergy is committed to being an industry leader in minimising the impact the company's activities have on both the local and global environment and is committed to reducing them by:**

- Meeting or endeavouring to exceed all environmental legislation that relates to the company's activities
- Measuring its impact on the environment and setting targets for on-going improvement
- Implementing a training program for its staff to raise awareness of environmental issues and enlisting their support in improving the company's environmental performance
- Minimising waste, both in energy consumption and materials
- Communicating and working with our suppliers and/or contractors/subcontractors towards improvements in management of the environment

A handwritten signature in black ink, appearing to be "K Tang", is positioned above the name and title of the signatory.
